iSpec
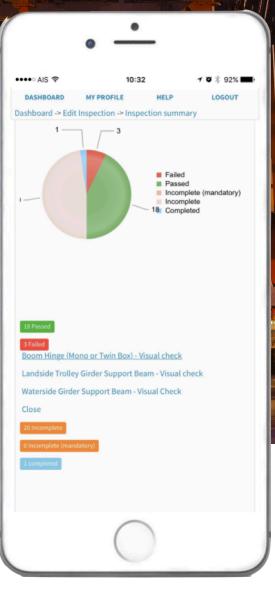

The **best-kept** secret in **procurement**

iNspect

Mobile inspection system

iSpec's mobile iNspect module is the ideal solution for managing the quality of your contract deliverables as well as ad-hoc inspections, commissioning and performance testing, civil and structural inspections and more. Why should you wait for days or weeks to see your inspection reports and find out you have a problem? Have your reports available online for immediate action with iNspect!

Learn more today by visiting www.remy-is.com or sending an enquiry to pboshoff@remy-is.com

What iNspect does:

- Online mobile inspection and reporting tools.
- Rapid collation and dissemination of the information.
- Controlled access and distribution.
- Easy-to-use mobile inspection screens.
- Immediate online access to all approved users.
- Complete access control.
- Automated reminders for items requiring attention.
- Highlighting of incomplete or outstanding items.
- A detailed audit trail of all inspections, actions, by whom and when.
- Multi-media attachments (photos, videos, etc.)
- Flag items requiring immediate action, follow-up, etc. with customisable flags.
- Send instant emails for non-conformance reports or work order creation from your mobile phone.
- Generate automated progress reports, non-compliance reports, etc.
