Concept

Hand over

- *iSpec comes as a fully hosted solution. This means you can start using the software immediately*

- *Initially, we also support the importing of existing contracts into templates in iSpec to help you quickly build your template library and share best practices*

- Enforce procedural compliance and ensure accountability for all stakeholders

- Mobile inspections allow you to identify and track issues remotely and instantly

iSpec

Stakeholders require speed, transparency and compliance

Accountability	Streamlined bid evaluations	Risk management	Audit/compliance/QA	Improved collaboration & transparency
Ensuring accountability with a detailed audit trail	Automated comparison of non-compliance, pricing, deliver schedules, etc	Vendor compliance, transparent comms, dispute resolution	Audit trail - single-point-of-truth - progress monitoring	Everything accessible in one place, anytime, anywhere

iSpec
